Embrace modern agriculture in India to unlock the potential of sustainable farming, feeding a growing nation while preserving our precious resources for future generations. Innovation and technology hold the keys to a greener,

”

Delta
Agrimech

Experience efficient harvesting with our range of multi-crop harvesters. Designed for diverse agricultural needs, these machines guarantee optimum yield with minimal wastage

Harvesting Excellence, Cultivating Futures

WELCOME FROM US

At Delta Agrimech, we believe in the power of progress. Our cutting-edge agricultural machinery is engineered for efficiency, productivity, and reliability. With a focus on innovation, we are redefining the future of farming, one machine at a time.

With a rich heritage of innovation and a commitment to sustainable farming practices, we provide state-of-the-art agricultural machinery tailored to meet the evolving needs of farmers worldwide

ABOUT DELTA AGRIMECH

Delta Agrimech is committed to empowering farmers with innovative solutions, and the Multi-Crop Harvester stands as a testament to their dedication.

By investing in this cutting-edge technology, farmers can enhance their agricultural practices, increase productivity, and contribute to sustainable farming practices. With Delta Agrimech's Multi-Crop Harvester, the future of agriculture is now, promising bountiful harvest and thriving farming communities.

A beacon of excellence in the agricultural machinery industry, consistently delivering

Through innovation, we cultivate not just crops but a prosperous nation, where every seed sown paves the way for a greener, more self-reliant tomorrow.

WHY CHOOSE DELTA AGRIMECH

01.

INNOVATIVE SOLUTIONS

We develop and supply the latest agricultural machinery, incorporating advanced technology for precision farming.

02.

QUALITY ASSURANCE

Rigorous quality checks ensure our products meet the highest industry standards, ensuring durability and performance.

CUSTOMER CENTRIC APPROACH

Our dedicated support team is available round-the-clock, providing unmatched customer service and technical assistance.

03.

SUSTAINABLE FARMING

We are committed to environmentally conscious farming practices, promoting eco-friendly machinery and sustainable agriculture.

04.

MESSAGE FROM CEO

At Delta Agrimech, we believe in the power of progress. Our cutting-edge agricultural machinery is engineered for efficiency, productivity, and reliability. With a focus on innovation, we are redefining the future of farming, one machine at a time.

Our range of tractors is designed for durability and performance, making them the perfect partner for your farm.

Experience efficient harvesting with our versatile multi-crop harvesters, capable of handling a variety of crops.

HIGHER PRODUCT QUALITY

Enhanced gearbox design ensures maximum efficiency, enabling a smooth operation with a top walking speed of 2.41 m/s.

Comes with a protective cover and anti-winding grass design for added safety and efficiency.

A 550mm wide conveyor bridge to ensure seamless passage.

Feeder auger display configured in 3+2+3+2 arrangements to enhance feeding capacity by over 20%.

SUPER OPERATING EFFICIENCY

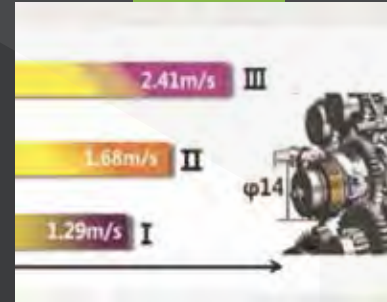

3+2+3+2

Equipped with protecting cover and anti-winding grass design

550mm

550mm wide convey bridge for more smooth passing

New gearbox more efficient with max walking speed 2.41 m/s

2200MM

Feeding auger display on 3+2+3+2 arrangements to improve feeding capacity more than 20%.

SPECIFICATIONS

Model	Delta 4LZ-5.0	Cutter Type	Standard Type II
Structure Type	Vertical Axis Flow feeding Rubber Crawler self propelled track type	Cutter Header Auger Type	Telescopic Transverse Conveyor Auger
Engine:		Real	
Type	4 - Cylinder , Vertical engine, water cooled, DI - Injection, Turbo charged engine	Type	Ecentric Tooth (Off Centro)
Rated	88hp / 100hp	Diameter	Ø900 pc
Rotation	2400 rpm	Quantity	1
Dimensions (L-W-H)	5150mm x 2660mm x 2850mm	Threshing Roller:	
Weight	3200kgs	Quantity	1
Cutting Width	2200mm	Type	Vertical Axis Flow Spike Tooth
Feeding Capacity	5 kgs/s	External (D*L)	Ø620 x 2010
Minimum Clearance	350mm	Concave Seive Type	Grid
Operation Speed	1.8 to 5.3 km/h	Break Type	Wet Friction Plate
Productivity	0.33 to 0.63 hm2/h	Rubber Crawler:	
		Size	500 /550mm*/56
		Track Gauge	1265
